

ADAPFLEX

Adapflex perforated banding with separate housings is recommended for occasional use in applications with variable diameters.

The fact that this clamp comes in rolls of 3 m and 25 m means that you can clamp diameters which standard clamps cannot cover. There is no need to know the application diameter beforehand as you can adjust the clamp to the diameter required on each occasion.

The assembly of this clamp is quick, clean and easy. All you require is a cutting tool and a conventional flat-head screwdriver.

Adapflex is available in different material qualities, thicknesses and bandwidths in a variety of different presentations. A practical and user-friendly kit in blister pack has been designed which contains 3m of band and 6 or 8 housings depending on the material quality. For bigger jobs 25 m rolls are available as well as sturdy boxes each containing 50 housings.

BAND MATERIAL: **W2:** Stainless steel AISI 430
W4: Stainless steel AISI 304

HOUSING MATERIAL: **W2:** Stainless steel AISI 430
Steel Screw Qst 36-3
Zinc Plated Cr3
W4: Stainless steel AISI 304

CORROSION RESISTANCE: **W2:** 72 hours salt spray (ASTM B-117)
W4: 400 hours salt spray (ASTM B-117)
